Giant Mine Remediation Project - Procurement and Contracting Northern Contractor's Experiences and Perspectives: Interviews Summary Findings Report

Natalie;

Please find attached a recent report entitled "GMRP Procurement and Contracting: Northern Contractors' Experiences and Perspectives: Interviews Summary Findings Report".

This report is a result of meetings with local contractors regarding their experience working on the Project to date. There are important issues highlighted in the report that require the serious attention of the Project Team, Public Services and Procurement Canada, and Parsons. In our view, failure to address these issues will inhibit the opportunity for northern businesses to capture more of the benefits offered by the Project.

If you have any questions in this regard, please let us know and we can arrange a meeting to follow up.
